

BY AUTHORITY.

Tenders for Purchase of Hawaiian Government Bonds.

Notice is hereby given that, under authority of Chapter 38, Session Laws of 1888, "An Act to give greater security to Depositors in the Hawaiian Postal Savings Bank," the Postmaster-General offers for sale \$50,000 of Coupon Bonds of the Hawaiian Government, such bonds to be issued in the denomination of one Thousand Dollars each, redeemable in not less than five years nor more than twenty years, with interest at six per cent. per annum, payable semi-annually, principal and interest payable in U. S. gold coin, the bonds to express on their face that they are issued as security for the Postal Savings Bank Deposits.

Tenders for the purchase of the whole or any part of said bonds will be received at the office of the Registrar of Public Accounts, Finance Department, up to 12 o'clock on THURSDAY, the 1st day of September, 1892.

The Postmaster-General does not bind himself to accept any tender, or the whole of any tender.

WALTER HILL,  
Postmaster-General.

Dated August 22, 1892.

#### NOTICE TO MARINERS.

During the process of Deepening the Channel at the entrance to Honolulu harbor the Dredger will be in operation night and day.

At night there will be a Danger Signal placed on the forward derrick of Dredger, about 30 feet above sea level, which can be seen by all vessels approaching the harbor. The Signal consists of 3 Red lights and a White light—as in the diagram—the red lights being about 3 feet apart, with the white light in the center.

All steamers crossing the bar will stop at a safe distance from the Dredger and give one blast of their whistle, which will be answered by a single blast from the Dredger, to be followed by three blasts from the Dredger when the passage is clear and they can proceed.

The Tug will be on hand when not otherwise engaged to assist sailing craft in passing the Dredger when necessary.

C. N. SPENCER,  
Minister of the Interior.  
Interior Office, March 9, 1892.

## THE DAILY BULLETIN.

Pledged to neither Sect nor Party,  
But Established for the Benefit of All.

TUESDAY, AUG. 30, 1892.

The BULLETIN is not responsible for the opinions of contributors on the lottery scheme any more than for those on any other matter.

#### THE DREDGE.

It was observed on Sunday that the hydraulic dredge was discharging sand into the sea. A complaint having reached the BULLETIN on the matter, information was sought at the Bureau of Public Works and cheerfully given by Mr. McIntosh, the Superintendent. The main dredging has been completed, leaving alternate hollows and hummocks at the bottom of the channel. The dredge spent a day or two moving over the course to level off the bottom, a process that did not admit of discharging on the enclosed dump. There is now a channel over the bar 200 feet wide and 1100 feet long, with a depth of 30 feet at low water. About 100 feet at the seaward end remains to be dredged, and for this length it is impossible, except at a very great expenditure of time and money—perhaps even at that—to lay the pipes to the dump owing to the rough and deep water to be traversed. Piles are lifted by the waves no sooner than their points are driven into the sand, and this difficulty would have to be overcome for 150 additional feet of pipe line to the dump. Under these circumstances the Minister of the Interior has given permission to the contractors to pump the sand out to sea for that 100 feet. It is expected that the new channel will be completed inside of two weeks.

When the contractors report completion the Public Works Bureau will sound the entire channel. For this purpose an apparatus is being constructed similar to one in use elsewhere, which will do more accurate work than could be done with lead and line. A perpendicular rod of piping will extend down 30 feet from the surface on each side of the steam tug, and a horizontal rod will be joined to the lower ends of the perpendicular rods. With this apparatus attached the tug will steam slowly forth and back over the entire channel. If there is a spot less than 30 feet in depth it will be detected by this operation. When the work is found to be satisfactorily accomplished and so certified, and the final payment is made to the contractors, the dredge will become the property of the Government. It will be a valuable plant to own, too, for the scooping dredge would probably have taken a year or more to do the work that has been done in about three months by this hydraulic dredge, at an expense much less, quantity for quantity, for the removal of the material than would have been entailed by the old method.

The prospect of failure that was so profile when the machine was building, and while it was experimenting with the peculiar conditions of the place of operation, have all come to naught like a great deal more of the spiteful partisan detraction of the administration. By next mail for foreign parts we can proclaim to the world that our harbor is accessible for ships of the deepest draught, thereby greatly enhancing the importance of Honolulu as a rendezvous for both national vessels and the commercial marine.

If Mr. Spencer had done nothing else in his incumbency of Minister of the Interior than this great work, his record should go down in our political history as one of the most useful ever made by a Minister in this country.

#### The Wheelmen.

The Pacific Wheelmen's races on Saturday afternoon on King street were witnessed by a large number of people. It was the third meet of the cycle men. The initial performance was the race for the Pacific Wheelmen's championship medal. There were six entries to the first race.

At the start H. Walker took the lead, followed by Ruby Dexter. Walker found his mistake at the quarter mile when H. Giles, who had been reserving his strength, put on a spurt and took the lead, maintaining it to the finish and winning by about six yards. Dexter second and Walker third. Time, 2 min. 44 sec. Giles is a young fellow, slim in stature and, though he doesn't look very strong, has good staying power. In riding Giles' movement is very quick but he is also steady. Dexter is about as good a cyclist as any, but he hasn't got the wind. Walker wants a little more experience, when he will be in it with the best of them.

The second race was a handicap. Only two men, Fred. Haley and Chris. Willis, tooting the scratch, the race was uninteresting. It was won by Haley, time not taken.

The final competition was a half-mile race, and was one of the prettiest races of the day. T. P. Cummins, W. Bush, W. Peterson and H. E. Walker were entered. Cummins snatched the lead at the start and it was nip and tuck between him and Walker for a quarter of a mile, when Walker took the lead and finished "hands broadest." Time, 1 min. 18 1/2 seconds. Willie Peterson was second, Bush third, Cummins giving up the race.

Golden Days are Coming.

EDITOR BULLETIN:—The bill now before the Legislature, granting a franchise for the maintenance of a monthly prize drawing, provides that the sum of \$500,000 annually for twenty-five years shall be paid into the Government treasury to be expended as follows:

First—Subsidy to be paid for an ocean cable between the port of Honolulu and a port on the North American continent, one hundred thousand dollars (\$100,000) per annum.

Second—Subsidy to be paid for the construction and maintenance of a railroad around the Island of Oahu, fifty thousand dollars (\$50,000) per annum.

Third—Subsidy to be paid for the construction and operation of a railroad from Hilo, Island of Hawaii, through the districts of Hilo and Hamakua, \$50,000.

Fourth—For improving and maintaining the improvements of Honolulu harbor, fifty thousand dollars (\$50,000).

Fifth—For roads, bridges, landings and wharves, one hundred and seventy-five thousand dollars (\$175,000).

Sixth—For the encouragement of industries, fifty thousand dollars (\$50,000) per annum, to be paid under the direction of the Legislature.

Seventh—For the encouragement of tourist travel and immigration, twenty-five thousand dollars (\$25,000), to be paid as directed by Legislature.

Ninth—If for any reason any of the above subsidies cannot be applied to the purposes herein set forth, then the sums so set apart shall be used from time to time as the Legislature may direct.

It may be pertinently asked, when will the above mentioned improvements be carried out, if the bill is rejected?

Furthermore, what is the future prospect of this country if the improvements suggested are not carried out?

The acceptance of the terms of offered means days of prosperity, golden days for one and all. \*\*

#### Take Good Care of the Children.

If you have children you will be interested in the experience of Mr. John Cook of Pilot, Vermilion Co., Ill. He says: "Two years ago two of my family, a young man and a girl, had very severe and dangerous attacks of bloody flux. The doctor here was unable, after a week's time, to check or relieve either case. I threw the doctor overboard and began using Chamberlain's Colic, Cholera and Diarrhoea Remedy. Improvement was seen very soon and my children arose in a few days from what I feared would be their deathbed. It is a grand, good medicine." For sale by all dealers. Benson, Smith & Co., Agents.

#### Letter of Condolence.

At the commencement of Yale College in June the following resolutions, which were offered by Ephraim Cutter, M. D., LL. D., were unanimously passed by the class of 1892. Dr. Cutter also gave a very feeling memorial address:

The Yale class of 1892, at their fortieth anniversary of graduation, notice Judge McCully's death, and hereby

Resolved, That we rejoice in his name and fame, in his deserved honors, his high rank, his brilliant usefulness, his pure, peaceable and stainless life, his strong and simple character, graceful demeanor, happy manner, broad cultured views, patient industry, devotion to duty and his great executive abilities as third person in the kingdom, as Judge and member of the Privy Council;

Resolved, That these are matters of just and laudable pride to us his sorrowing classmates, and make our memories of him joyful;

Resolved, That we thank God for such an honorable life and honored death, and that we hope future classes in Yale may be as fortunate as we in seeing the rise, development and full fruition of like noble characters;

Resolved, That we are grateful to the Hawaiian nation and Bar for their public recognition of the services and worth of our distinguished classmate, and that in honoring him they have honored themselves;

Resolved, That we hereby tender to the family, the nation and the Bar our sincerest sympathies, and mourn with them our mutual loss, and that these resolutions be sent to them and recorded by our Secretary.

New Haven, Conn., June 28, 1892.

Offered by Ephraim Cutter, M. D., LL. D., and unanimously passed.

Attest: A. N. LEWIS,  
Class Secretary.

New Haven, Conn., U. S. A.

#### Mr. Lander's Recommendation.

Mr. J. A. Lander, a prominent citizen of Clarksburg, Mo., and widely known in that State, says of Chamberlain's Colic, Cholera and Diarrhoea Remedy: "I have seen its good results and can recommend it." For sale by all dealers. Benson, Smith & Co., Agents.

## "August Flower"

Biliousness, Constipation, Stomach Pains.

"I have been afflicted with biliousness and constipation for fifteen years; first one and then another preparation was suggested to me and tried but to no purpose. At last a friend recommended August Flower. I took it according to directions and its effects were wonderful, relieving me of those disagreeable stomach pains which I had been troubled with so long. Words cannot describe the admiration in which I hold your August Flower—it has given me a new lease of life, which before was a burden. Such a medicine is a benediction to humanity, and its good qualities and wonderful merits should be made known to everyone suffering with dyspepsia or biliousness." G. G.
